Rule: one tool per job, and only when the job repeats every week.

The $0 starter stack (tool cost estimate only)

1. Free chat assistant → scripts, emails, ideas.
2. Synthesia or HeyGen free → first test videos (watermark is fine at the start).
3. Systeme.io free → opt-in page + emails.
4. Kit free → newsletter once your list outgrows what you want to manage in Systeme.io.

This stack describes **tool fees**, not earnings. Results depend on your content, audience and offer.
